# Tree-shaped lounge furniture

„Tree“-shaped sofa. Beyond the exciting form our textile covered sofas are also very comfortable. Due to the movable elements and by changing the shape and number of application motifs with Velcro these elements are not just seats but the kids can be introduced to the world of numbers and natural science playfully. The handmade sewed motifs on the products make these unique and beautiful. The elements are made with removable and washable cover.

Modern educational equipments - ergonomic plastic chairs and easy moving tables.

KALEIDO-HRL | *single student table*

# Kaleido brand

There are such kind of puzzles which have several proper solutions. These are the so called kaleido puzzles. The name of our new Kaleido brand was inspired by these kind of toys, because the speciality of the Kaleido tables are the wide scope of variability due to the geometry of the table. In the new approach of education, the teamwork is very important, therefore the place and the set-up of tables should be rearranged several times a day. There are no wrong solutions only the conditions of the room and the teacher's requirements determine the form of the installation. The tables are available with castor-wheels making even easier the moving. Tables and chairs are manufactured in a variety of colours.

# Ultraflex brand

Ultraflex brand. Our innovations provide multiple options for our customers to choose the most suitable solutions from our product line including multifunctional furniture for the smooth running of everyday education. One of the basic principles of modern education is the differentiation in classroom, which presumes that the school furniture should be suitable for the individual learning, for the teamwork also for having a rest if needed. For this differentiation, the extensional position of school furniture should be changed, thus beyond the ergonomic and functional aspects the easy mobility and variability are essential. The great mobility of Ultraflex brand brings the chance of variation in the everyday education.

### HOTEL AND RESTAURANT FURNITURE

In the field of professional hospitality, the equipment should fulfil double requirements. The furniture should be stylish and aesthetic but also durable because of the increased usage. Our product line is based on these principles.

### CHANGING ROOM FURNITURE

The changing rooms and their furniture are also needed in wide range of institutions such as in schools, hospitals, public utility companies, wellness places, etc. Beyond the deposit function, the hygienic way of storing clothes and shoes is indispensable, even in high humidity environment. Our comfortable benches and lockable cabinets are ideal solutions for several types of locker rooms.

### OFFICE FURNITURE

The ideal office environment is aesthetic, inspiring and ergonomic. Our product line focus on these essential principles. Besides workbenches and work desks, the product range of our office furniture can offer equipment for executive and meeting rooms.

### SCHOOL FURNITURE

We provide complete solutions of furnishing for educational institutions from elementary school to higher education and not only in the classrooms but also for dormitories or for recreational activities.

### NURSERY FURNITURE

We can offer comprehensive furnishing solutions for nursery-schools. You can find tables, chairs, containers, beds, and other skill development tools in our product line.

### STREET FURNITURE

The feature of street furniture is serving the public on a permanent location without any special protection from the weather conditions and the increased usage. Our street furniture is safe and unstealable due to our installation methods.
